

S.A.F.E Checklist for Evaluating a Real Estate Project

S.A.F.E — Security, Analysis, Fidelity & Expert Guidance

International proprietary real estate analysis and pre-screening methodology for structuring questions before a purchase decision.

S — Security	Developer, seller, land/title position, authorizations, contract and available evidence.
A — Analysis	Price, use case, yield, liquidity, costs and prudent investment scenario.
F — Fidelity	Consistency between plans, materials, finishes, timeline and promised delivery.
E — Expert Guidance	Documents to request, payments, notarial steps, reservations and decision support.

Checks Before Commitment

01	Identify the operator, project company and responsible contacts.
02	Request useful title, plan, surface, authorization and contract documents.
03	Compare price with location, real quality and additional costs.
04	Understand the payment schedule, payee and exit conditions.
05	Connect brochure, plans, materials, timeline and promised delivery level.
06	List missing information and request written clarification.
07	Have binding documents reviewed by qualified professionals.
08	Decide whether the project should be deepened, paused or rejected.

S.A.F.E is a proprietary analysis and pre-screening methodology. It is not an official government certification, does not guarantee the absence of risk and does not replace the legal, notarial, technical, tax or financial checks required before a property purchase.
